**MY-PORTFOLIO**

## EDUCATION

---

### International Institute of Information Technology

*B.Tech in Data Science and Artificial Intelligence*

2019.08 - 2023.05

- **CGPA** : 8.25

## EXPERIENCE

---

### Essenvia

Remote

*Content Developer Data Science*

2021.05 - 2021.07

- Created .ipynb files for different business cases as provided by the team lead.
- Worked on driving the insights from the data.

### IIIT-NR

Naya-Raipur, Chhattisgarh

*Frontend Developer/ member of Web Development Team*

2021.10 - Present

- Created different section of Scientific2k21 IIIT-NR using HTML, CSS and Bootstrap.(link)

## PROJECTS

---

- **Language Converter**
  - This is a Machine Translation Project
  - Translating German to English using Seq2Seq Model(Based on LSTM network).
- **Human Activity Detector**
  - Used accelerometer data collected from android phones.
  - Trained the data in three different model i.e CNN, RNN, Hybrid(CNN+RNN).
  - RNN gave the best result which we used to predict the real time data.
- **Stories Inshort**
  - This model will use text summarization.
  - Pre-processing : tokenization, removing punctuation
  - Gives summary of any article or stories in 100 words.
- **My Portfolio**
  - Used HTML, CSS, Javascript, Bootstrap and Django.
  - Deployed using Heroku.

## SKILLS

---

- **Languages** - python, C/C++, java
- **FrameWork and Libraries** - Tensorflow, Pytorch, pandas, NumPy, Matplotlib, OpenCV, Sklearn etc
- **Web Client Development** - HTML, CSS, javascript, Django, BootStrap
- **Developer Tools** - Git, VSCode, JupyterNotebook, PyCharm, Spyder
- **Soft Skills** - Public Speaking, Agile

## ACHIEVEMENTS

---

- **Third position in Ideathon2.0 conducted in IIIT-NR**  
how to save time during a heart attack and to call an ambulance as fast as possible.
- **Second position in Intra-Hackathon conducted in IIIT-NR**  
how to make Ticket available to tourist without standing in queue.

## POSITION OF RESPONSIBILITY

---

### Artificial Intelligence and Machine Learning Club IIIT-NR

*Core Member*

2020.10 - 2021.08

- Taken 3 sessions of python and 5 sessions on data analysis and data visualization using different library functions like matplotlib, seaborn ect.
